INDEPENDENT AUDITORS' REPORT

We have audited the accompanying statement of financial position of the Albanian-American Development Foundation (the "Foundation") as of December 31, 2010 and the related statements of activities, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information. These financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit.

Except as discussed in paragraph below, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America (the "U.S. Government Auditing Standards"). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Although we have periodic quality control reviews by other Deloitte affiliates, we did not have an external peer review by an unaffiliated audit organization as required in Chapter 3, paragraph 3.52 of the U.S. Government Auditing Standards since no such program is enrolled in Albania by professional organizations. We believe that the effect of this departure from U.S. Government Auditing Standards is not material because we participate in the Deloitte worldwide internal quality control review program which requires Deloitte Albania sh.p.k. to be subject every three years to an extensive quality control review by partners and managers from other Deloitte affiliates. The objectives of the internal quality control review to which Deloitte Albania sh.p.k. is subject to, are similar to those required by Chapter 3, paragraph 3.52 of the U.S. Government Auditing Standards.

Opinion

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of the Albanian-American Development Foundation as of December 31, 2010, the results of its activities, its cash flows and financial highlights for the year then ended in accordance with accounting principles generally accepted in the United States of America.

ALBANIAN-AMERICAN DEVELOPMENT FOUNDATION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2010

(all amounts are expressed in USD)

1. ORGANIZATION

The Albanian-American Development Foundation is a U.S. not-for-profit corporation originally incorporated in the State of Delaware on September 9, 2009 pursuant to an agreement between the Albanian-American Enterprise Fund and the U.S. Government based on the certificate of Incorporation and the legal form of the entity is a Corporation. The Albanian-American Development Foundation registered in the U.S. pursuant to the U.S. Foreign Assistance Act of 1961 and of the U.S. Support for East European Democracy act of 1989 (SEED Act) by building upon the programs established by the Albanian-American Enterprise Fund supporting the development of the private sector through education, entrepreneurship, leadership development, cultural and eco-tourism in Albania. The Foundation shall be operated as a perpetual endowment.

The Foundation is capitalized through an endowment created by a grant from the Albanian-American Enterprise Fund (the "Fund"). The Fund pays or transfers to the Foundation certain proceeds, which constitute in aggregate the endowment to the Foundation. The original source of the grant funds provided by the Fund to the Foundation is the U.S. Government acting through USAID and the funds provided through the Foundation are therefore a gift from the American people to the citizens of Albania.

The Foundation will assist in the development and growth of a vibrant private sector for the benefit of a free and democratic Albania. The Foundation will continue the Fund's mission to make a meaningful contribution to Albania's economic transition and progress. It will serve as an enduring symbol of U.S. commitment to Albania.

The Foundation program will concentrate on four areas:

- Education for Sustainable Development
- Entrepreneurship
- Leadership Development; and
- Support for Cultural Tourism and Eco-Tourism

The Foundation uses two approaches to fund its program strategies: grants and program related investments. The Foundation generally seeks an external program manager to execute the objectives of each individual grant, thereby leveraging the Foundation's resources.

The Foundation maintains offices in New York, NY, U.S.A. and in Tirana, Albania, with the majority of the Foundation's operations performed through its personnel hired in Albania.

On November 30, 2010, the Albanian-American Enterprise Fund's decided to transfer the Vanguard account with a fair value of USD 148,572,535 to the Albanian-American Development Foundation, as an endowment. The transfer was completed on December 22, 2010 at an amount of 151,067,604, which represents the fair value of the investment at the effective date of transfer.

On the same date the Fund, transferred to the Foundation a liability of USD 656,250 detached to the proceeds deposited in the Vanguard account. This liability is payable in connection to the non-competing agreement signed between the Fund and a retired executive. The non-competing agreement is payable out of the net proceeds generated from the liquidation of the Fund's investments. Since the Fund transferred these proceeds to the Foundation as an endowment at November 30, 2010, the remaining obligation amounting to USD 656,250, for the non-competing were transferred to the Foundation on the same date.

ALBANIAN-AMERICAN DEVELOPMENT FOUNDATION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2010

(all amounts are expressed in USD)

2. BASIS OF PRESENTATION

The Foundation prepares its financial statements in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958, *Not for Profit Entities*.

The Foundation's statements are reported on a US dollar basis.

Unrestricted net assets are those net assets that are not restricted by donor imposed stipulations.

Unrestricted net assets are further designated as restricted by the Board of Trustees when assigned to approved projects.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

b. Investments

Investments in equity securities with readily determinable fair values and all debt securities are stated at fair value. Fair value is determined based on quoted market prices and/or other inputs permitted by ASC Topic 820, as described in "Fair Value" below. Unrealized gains or losses on investments resulting from market fluctuations are recorded in the statement of activities in the period that such fluctuations occur. Realized and unrealized gains or losses on investments are determined by comparison of specific costs of acquisition to proceeds at the time of disposal, or market values at the last day of the fiscal year, respectively, and include the effects of currency translation with respect to transactions and holdings of foreign securities. Investment sales and purchases are recorded on a trade-date basis, which results in both investment receivables and payables on unsettled investment trades. Dividend income is recorded based upon an ex-dividend date and interest income is recorded as earned on an accrual basis

c. Fair value

The Foundation uses Accounting Standards Codification, ASC Topic 820, Fair Value Measurement and Disclosures ("ASC 820"). ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Foundation utilizes market data or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. The Foundation's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value of assets and liabilities and their placement within the fair value hierarchy levels. ASC 820 also established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, maximizes the use of observable inputs, and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are as follows:

Level 1 Valuation based on unadjusted quoted prices in active markets for identical assets or liabilities that a reporting entity has the ability to access at the measurement date, and where transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 Valuation based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets, or liabilities in markets that are not active, that is markets in which there are few transactions, prices are not current, or prices vary substantially over time.

ALBANIAN-AMERICAN DEVELOPMENT FOUNDATION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2010

(all amounts are expressed in USD)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

c. Fair value (continued)

Level 3 Valuation based on inputs that are unobservable for an asset or liability and should be used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. This input, therefore, reflects the entity's assumptions about what market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

Inputs are used in applying the various valuation techniques and refer to the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, liquidity statistics and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Foundation considers observable data to be market data which is readily available and reliable and provided by independent sources. The categorization of a financial instrument within the hierarchy is therefore based upon the pricing transparency of the instrument and does not necessarily correspond to the Foundation's perceived risk of that instrument.

Cash, Money Market Funds and Term Deposits - These assets are held either as cash, money market funds, or bank term deposits, which are public investment vehicles, valued using \$1 per unit for the net asset value and are classified within Level 1 of the valuation hierarchy.

Vanguard Investments: Vanguard investments consisted of Bonds, Stocks and Money Market Institutional Shares listed in public exchanges. These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the Vanguard Investments fund. The NAV for public mutual funds is a quoted price in an active market and classified within level 1 of the valuation hierarchy. The fair value of Vanguard investments is based on quoted market prices reported to Management by its investment advisors, Vanguard Advisors, Inc. The ASC 820 disclosures are presented in note 11.

This price is classified within Level 1 and Level 2 of the valuation hierarchy because either the instrument has a unit price that is quoted on an active public market or on a private market; however the instruments are issued and guaranteed by entities that are traded on an active market. In addition, the issuing entities prepare financial statements in accordance with US GAAP and are making interest payments according to the instruments' original terms.

Other assets and Liabilities - Due to the short-term nature of cash equivalents, receivables, prepaid expenses and other assets, accounts payable and accrued payroll, their fair value approximates carrying value.

d. Cash and Cash Equivalents

Cash and cash equivalents are considered all highly liquid financial instruments with original maturities of three months or less when purchased.

c. Interest and dividend income

Interest and dividend income is recorded in the period in which it is earned.

d. Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ materially from those estimates.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

e. Functional Currency

The Foundation's functional and reporting currency is the U.S. dollar. The Foundation's operating transactions are initiated in U.S. dollars and exchanged for Albanian Lek and/or EUR only when needed using the spot rate received by the bank. All of the Foundation's Albanian Lek and EUR assets and liabilities are re-measured into U.S. dollars at the period's end official exchange rate. Re-measurement adjustments are reflected in the statement of activities.

f. Property and Equipment and depreciation

Office equipment and software are recorded at cost. Depreciation is calculated using the straight-line basis over the estimated useful life of the equipment ranging from three to ten years. Leasehold improvements are amortized on a straight-line basis over the lesser of their useful lives or the term of the lease. The estimated useful lives applied for the financial year ended December 31, 2010 are:

- | | |
|-----------------------------------|---------|
| • Computer Equipment and Software | 3 years |
| • Vehicles | 5 years |
| • Office Equipment | 5 years |

Gains and losses on disposal of property and equipment are recognized in the statement of activities and as changes in net assets in the year of disposal.

18. CONCENTRATION OF RISK

As of December 31, 2010 The Foundation has its investment portfolio invested in the United States through Vanguard Investment.

These investments are diversified as follows:

64%	invested in fixed income mutual fund (MF) investments while
35%	invested in foreign and domestic (US) equity funds
1%	invested in Money Market accounts

There are various degrees of risk associated with each of these funds.

Each fund is managed by Vanguard and is subject to fees and disclosures detailed in the funds' prospectus. Dividend distributions as well as realized capital gains are reinvested in the respective funds.

The Foundation's investment portfolio is reviewed at least quarterly by the Investment Committee of the Board of Directors of the Foundation. During this review the concentration of risk as well as the performance of all investments is assessed. All new investments of the Foundation are pre-approved by the Investment Committee. In addition, the Foundation uses external investment managers and advisors to manage the risk of the portfolio.

19. MARKET RISK

a. Currency Risk

The Foundation is exposed to limited effect of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows considering that its functional and reporting currency is USD.

b. Price Risk

The Foundation is exposed to market price risks related to its investments. As a result of the global economic slowdown the financial markets remain volatile, which may lead to market price fluctuations of Vanguard Funds' underlying assets and may cause uncertainty regarding the accounting estimates in future periods.

20. COMMITMENTS AND CONTIGENCIES

As at December 31, 2010, the Foundation had no commitment and contingencies that would require disclosure in the financial statements.

21. TAX STATUS

ALBANIAN-AMERICAN DEVELOPMENT FOUNDATION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2010

(all amounts are expressed in USD)

22. SUBSEQUENT EVENTS

The Albanian-American Development Foundation (the "Foundation") was registered in Albania based on the court decision dated March 18, 2011 under an identification number NUIS L11618452N.

Based on the bilateral agreement between the governments of Albania and the United States, (Decree 224, dated 6/11/1992) which defines tax treatments of US Government funds disbursed in Albania, Albanian-American Development Foundation as a recipient of USAID funds shall not pay income tax in Albania.

In May 26, 2011, the Foundation entered into a Technical Service Agreement with the Fund for the provision of services and office space as detailed in the agreement. Accordingly the actual costs paid from the Fund on behalf of the Foundation since the establishment of the latter, were allocated to the Foundation until December 31, 2011.

No other subsequent events were identified that required adjustment to or disclosure within the financial statements for the year ended December 31, 2010.
